# NAVIGATOR® BARRIER

## UNBEATABLE VALUE

The Navigator® is a blow moulded high density polyethylene barrier that has been developed for attended and unattended street work. This is a cost effective solution to ensure safety by segregating hazards and areas that could potentially cause a danger.

**NAVIGATOR®**

**GO GREEN  
AND REFRESH**

We are committed to reducing waste therefore we work closely with recycling partners to ensure the lifecycle of materials. This enables us to reduce our carbon footprint.

**100% RECYCLABLE**

# NAVIGATOR® FEATURES

## ✓ STORAGE & DISTRIBUTION

- An effective stacking solution designed to maximise stability and storage for 40 units per pallet.

## ✓ STACKING FEATURE

- Stacking feature enables each barrier to lock together to ensure safe storage and transportation.

DIMENSIONS	Weight	12kg
	Height	1000mm
	Length	2000mm
	Width	50mm
	Full Pallet	2000mm width x 1250mm depth x 2250mm height
STANDARDS	BSEN8442 (wind stability) BSEN12899-1 (reflective only) Chapter 8 (Traffic Signs Manual) TSRGD* SSWRW**	
MATERIAL	Body	Polyethylene - Red
	Feet	Recycled PVC 

\* Traffic Signs and General Directions

\*\* Safety at Street Works Act

## ✓ MULTIPLE CONFIGURATIONS

- Designed for contractors to use in numerous configurations offering adaptable solutions to secure additional barriers. This free standing barrier with 360° swivel feet can also be positioned at a 90° angle to ensure stability.

## ✓ EASY TO CONNECT

- Easy to link making it possible to connect barriers together incorporating the 'peg and hole' system.

## ✓ REFLECTIVE PANEL

- Class R1 high intensity reflective panel that conforms to BSEN12899-1.

## ✓ SUREFOOT BLOC™

- Compatible with the Surefoot Bloc™. A 6.5kg recycled PVC foot cover to add weight and extra stability.
