

### 3M™ Reusable Respirator Full Face 6000 & 6000DIN Accessories

Fig. 1

Fig. 2

The 3M™ 6894 Nose Cup Assembly consists of a nose cup and inhalation valves. It is designed to install onto the center port adapter of the 3M™ 6000 Series Full Facepiece and comfortably fit over the respirator wearer's nose and mouth to aid in purging exhaled breath and prevent lens fogging.

1. Remove the nose cup assembly by pulling away from center adapter base inside facepiece. (Fig. 1)
2. Position nose cup assembly onto center port adapter as shown, aligning 3 tabs in notches. (Fig. 2)

## Warning

Selection of the most appropriate respiratory protective equipment (RPE) will depend on the particular situation and should be made only by a competent person knowledgeable of the actual working conditions and the limitations of RPE. Details regarding performance and limitations are set out in this technical bulletin as well as on the respirator packaging and user instructions. Before using any respirator, the wearer must read and understand the user instructions for the product. Specific legislation must be observed. If in doubt, contact a safety professional or 3M.
