DataSheet

Cabinets range Tough, durable, incredible value...

These cabinets are manufactured from ABS plastic. ABS is extremely robust, and has remarkable ability to absorb shocks and bumps. We have tested one in extreme conditions, even bashing it with a digger bucket, and dropping from over 10 feet high – shrugs it off!

FIRE EQUIPMENT CABINETS

Another famous quality of ABS is its resistance to chemicals. Along with their effective weather and water seal, these cabinets can be used in all sorts of extreme conditions. It's not just about what's on the outside... The internals of these cabinets are brilliant too. An innovative clamp and strap system firmly holds extinguishers in place, and accommodate pretty much any shape and size of extinguisher. Or they can even be taken out completely for a truly versatile space. And the best bit? They are remarkably cost-effective! For more information visit our website.

Code	Capacity	Colour	Description	Dim (mm) (h x w x d) / Wgt
CS01-DA9	1 x 9kg / 9ltr / 2kg CO_2	Red	Single Cabinet	(Ext) 715 x 335 x 240 (Int) 652 x 264 x 204 2.7kg
CS02-DA	1 x 9kg / 9ltr / 5kg CO_2	Red	Single Extended Cabinet	(Ext) 865 x 335 x 240 (Int) 816 x 264 x 204 3.2kg
