

# AED CABINET AEDC01

## Be Ready to Save a Life — Install the MEDIC AED Cabinet Today!

When every second counts, the MEDIC AED Cabinet ensures that life-saving equipment is secure, visible, and ready for immediate use. Designed with emergency response in mind, this cabinet is the ideal solution for public spaces, offices, factories, schools, malls, airports, and residential complexes.

### Why MEDIC AED Cabinet Stands Out

- **Affordability Meets Reliability:**  
The MEDIC model is cost-effective yet engineered for maximum security and durability. Perfect for large-scale rollouts in Industries, Schools, Offices, and Public Venues.
- **Secure, Yet Accessible:**  
Lockable design prevents tampering, yet allows quick access through a user-friendly clasp system during emergencies.
- **Alert System for Immediate Response:**  
An 85 dB alarm with a keyed switch and red strobe light activates the moment the door opens, deterring theft and alerting nearby individuals.

### KEY FEATURES:

- High-visibility neon orange body with ANZCOR approved AED signage.
- Audible 85 dB alarm and red strobe light for immediate visual and audio alert.
- Mini alarm system with keyed on/off switch for tamper resistance.
- Magnetic door latch for secure closure and smooth opening.
- Entire cabinet front swings open for fast access.
- Impact-resistant transparent Perspex viewing window.
- Fits all major AED brands: Ami Italia, Smarty Saver, ZOLL, Philips, HeartSine, Defibtech, Physio-Control, etc.
- Powder-coated steel resists corrosion; fully seam welded body.
- Includes emergency safety hammer and two locking keys.
- Long-lasting battery backup (6 months); 9V alkaline battery included.
