

Construction	Knitted
Liner Material	Polyester
Coating Material	Nitrile
Finishing	Knuckle Coating
Gauge	13
Cuff Style	Knit wrist
Size	7,8,9,10,11
Length(mm)	240 mm
Packing	12 pairs in a bag 720 pairs in a bag

## IDEAL APPLICATIONS

- Maintenance
- Packaging
- Light Assembly task
- Warehouse work
- General Handling

## INDUSTRIES

- Automotive,
- Machinery & Equipment
- Metal Fabrication
- Building & Construction
- Industry

## CATEGORY II

### Standard and Certifications

EN 388:2016 + A1:2018

4121A

## DESCRIPTION

UK-101 industrial gloves feature tough Knuckle-dipped nitrile coating, perfect for light-duty manufacturing and maintenance applications. Excellent grip properties and resistance to residual oils/grease present on parts thanks U3 technology of the liner.

Nitrile coating also ensures excellent abrasion resistance – meeting EN level 4 standards – and secure, assured grip in dry and moderately oily conditions
