

MOBILIZE BRS301 BASKET RESCUE STRETCHER

- The MOBILIZE BRS301 is ideal for most rescue situations and separates in half for compact storage or backpacking to a rescue site. Stretcher halves store nested together.
- The MOBILIZE BRS301 Basket Stretcher provides full-body protection to patients, even when they need to be transported across uneven, hazardous ground. The spacious basket stretcher offers room to accommodate blankets and life support equipment.

FEATURES:

- High-density polyethylene shell is supported by a permanently-attached, heavy-duty, aluminum frame.
- Shell is chemical, UV, rust, and corrosion resistant, ensuring long life.
- Molded-in runners and handholds make stretcher easy to handle, even over rough terrain.
- Replaceable, closed-cell foam mattress attached inside for patient comfort.
- Optional 5-Section Flotation Collar attaches to the Basket Stretcher to provide flotation assistance for water rescue.
- Stretcher halves store nested together.
- Quick and easy to assemble and secured with pins.
- Brass grommets are strategically located for quick use with Adjustable Lifting Bridle (tag lines should always be used when lifting the basket stretcher).
- Three 2-piece, 5-foot-long quick-release patient restraints are simple to use and are easily positioned to fit each patient.
- Medical Device (93/42/EC) Class 1.
