

MOBILIZE CSR801 CARRYSHEET

- A lightweight and carry sheet designed for emergency personnel evacuation. The MOBILIZE CSR 801 Carry Sheet stretcher is widely accepted as a vital aid in the rapid evacuation of non-ambulance patients from hazardous situations. Casualties are carried via the ten large wrap-around hand loops. It is instantly available in emergency situations. Constructed of heavy-duty rip-stop PVC vinyl, the Carry Sheet stretcher is easily cleaned and reusable. Can be folded and enclosed in a carry bag.
- Transport a patient for short distances.
- Load patients who are unable to move independently onto a stretcher.
- Transfer a patient from the stretcher to another surface.

FEATURES:

- Polyester patient surface minimises friction.
- Head/Foot end handles aid manoeuvring/carrying in confined spaces.
- 8/10 side handles. Each pair is sewn from one piece of webbing and bar-tacked together in four places for strength and reliability.
- Webbing stitched at regular intervals across the width of the sheet to support the patient's weight evenly.
- Webbing reinforcement sewn to the carry sheet perimeter to provide strength and integrity to the whole unit.
- Comes in a breathable mesh storage bag with toggle opening.
- Medical Device (93/42/EC) Class 1.
