

MOBILIZE UHI401 UNIVERSAL HEAD IMMOBILIZER

- The lightweight, easy-to-apply MOBILIZE UHI401 Universal Head Immobilizer helps immobilize patients quickly and safely, allowing you to deliver more comfortable and secure care. It features two plastic-coated, closed-cell foam head supports, a universal attachment base, and two durable head straps that conform to the patient's forehead. Large ear holes allow you to easily monitor the patient. The base plate fits all backboards. Head supports can be used on any standard backboard or can be inverted for use on the MOBILIZE Scoop Stretchers.

FEATURES:

- Base plate fits all backboards.
- Head supports can be used on any standard backboard or can be inverted for use on the Mobilize Scoop Stretchers.
